HIS RECEPTION IN CHICAGO

Was Constantly Cheered By the People Anxious to Grasp His Hand

Chicago, Jan. 25.—E. H. Harriman, who organized the Southern Pacific and Union Pacific combinations, was the first witness at today's session of the Interstate Commerce commission's inquiry into the "community of interests" combination of the great railroads of the northwest. The line of questioning by the counsel for the commission, led up to a statement of the great Wall Street financier that May, when the Northern Pacific stock was \$100,000 per share, Harriman testified that the Oregon Short Line, owned by the Union Pacific, had purchased some \$750,000 of Northern Pacific stock and the Union Pacific, through the voice of its directors, controlled the Southern Pacific. It was developed that at this Northern Pacific stock, which was held in the names of Harriman and Winslow Pierce, was sold last summer.

An effort was made to learn why the purchase had been made only to sell again. Harriman said the Oregon Short Line people thought it would be advantageous to have an interest in the Northern Pacific and purchased stock that was lying loose all over this country and Europe and purchased a majority of the capital stock. No stock was acquired during the panic in May.

NATURAL CONDITIONS.

Questions as to why Harriman had disposed of his Northern Pacific holdings and what was lost or made by the transaction, and whether Hill had made some agreement in case the holdings were sold, brought from Harriman a response that natural conditions controlled. He said he did not know of any gain made except that his interests found out that they were strong enough to hold their own in Pacific traffic. He said Hill had given no assurances of any division of traffic and the motive of the original purchase had been that of preserving to the Union Pacific system avenues of traffic open to it.

"You wish to represent that no one of the old Northern Pacific interests had made any promise in control," Harriman replied. "There is a common interest among us all, and we believe the common interest will be served regardless of holdings. That common interest can be served by natural conditions; our interests are so in common that we cannot injure others without injuring ourselves."

HARRIMAN ON COMPETITION.

Harriman insisted that the common interest of all the systems now affiliated under the Northern Securities company must be considered rather than the so-called "community of interests." He said he was a member of the board of directors of the Securities company and Hill was president, but the combination under that company affected rates in no wise. He told how, shortly after the scramble over the Northern Pacific, Morgan had been given a proxy by him in order to sell the stock again. It was understood the sale was to be effected to cash and securities, the latter in the Northern Securities company if it should be organized. Harriman eventually controlled about sixty million dollars stock of this company. The question of the formation of the Northern Securities company and the association of so many roads might not influence rates, brought a denial. Harriman did not think competition over reduced rates more than temporarily.

At the conclusion of his testimony, Harriman took a special train for New York. Hill, who had not been called again to the stand, was excused and accompanied Harriman.

HARRIS OF THE BURLINGTON.

George B. Harris, president of the old and now Burlington companies, then testified as to the transfer of the Chicago, Burlington & Quincy railroad company's efforts to the Burlington railway company and promised to furnish the commission with a copy of the ninety-nine year lease of the road, and said none of his conferences with Hill or others had reference to anything other than to the general efficiency of the road. It was the hope of the new company to be able to reduce rates; such reduction would follow only natural conditions, the favored publicity for all rates and seasons.

N. P. STILL INDEPENDENT.

Charles S. Mellon, president of the Northern Pacific, was then called. Hill was not more frequent nor more potent than those with any other presidents of northwestern roads. He said there was no agreement between the Northern Pacific and either the Great Northern and Union Pacific or the Canadian Pacific roads, on the allotment of traffic or on differentials. The Northern Pacific is just as independent in its management of affairs as before Jan. 1, 1902, and there had been no orders or suggestions as to the management from the Northern Securities company or any of its directors.

The commission ended its sitting with Mellon's testimony and took an adjournment till Wednesday at Washington.

Plattsburg, Mo., Jan. 25.—Mrs. Addie Richardson was this afternoon acquitted of the charge of murdering her husband, Frank W. Richardson, a wealthy merchant, who was shot and killed Christmas eve, 1900, as he was entering his home at Savannah, Mo. A dramatic scene followed the rendering of the verdict. Mrs. Richardson was overwhelmed with congratulations from friends who crowded the court room to await the arrival of the jury.

The jury went out at 3:30 and returned with the verdict thirty-five minutes later.

Mrs. Richardson was indicted for murder in the first degree and the state endeavored to prove as a motive that she sustained improper relations with Stewart Pile, a young society man and former business associate of Richardson. Pile was arrested recently at North Yakima, on a charge of complicity in the crime and is now in jail in Savannah awaiting trial.

Judge R. E. Culver and A. W. Brewster closed for the defense, Clifford Cross and Charles E. Becker ending the argument for the state. The defense laid particular stress on the fact that Mrs. Richardson was a typical southern woman who with characteristic hospitality had thrown her house open to her husband's friends.

Culver's defense of Mrs. Richardson brought tears to the eyes of many and several times during Attorney Brewster's plea for the defendant there was scarcely a dry eye in the court room.

Attorney Becker, during the speech in closing the case for the state said: "If there is anything I could tell that would clear the cloud from this poor woman's character I would be glad to do it. I am willing to concede that prior to the death of her husband no one stood higher in Savannah than Mrs. Richardson. There was not a breath of suspicion against her."
